## Description

FSR8 series fluorescent strip channel retrofit kit is a simple and cost-effective solution to upgrading existing 8' strip fixtures into newer and more efficient electronic T8 or T5 strips.

## Features

### Construction

- Designed for trouble free installation.
- Uses two (2) 4' gear trays that install independently for easy installation.
- Lampholder cutouts guarantee correct lampholder spacing and that lampholder will not fall out during install.
- Optional reflectors available
- Code gauge steel
- High gloss, baked enamel finish
- High quality lamp holders
- NEC compliant luminaire power disconnect standard
- Contents: 2 geartrays with fully wired ballast and lampholders; 12 tek screws; 4 geartray tethers

### Ballast

- Electronic, Inherent Thermal Protection, Class P, Sound rated A
- UL Listed

Fixture Listing: UL Listed

### Quality Assurance

- System Tested, Designed, Approved, and Manufactured in Mendenhall, Mississippi.

## Installation in Seven Simple Steps

1. Power off
2. Remove existing front cover, lampholders, and socket bars.
3. Screw geartray tethers into existing fixture to hang geartray.
4. Insert lampholders into labeled geartray cutouts.
5. Insert incoming power leads into ballast disconnect plug.
6. Close cover and screw it to fixture body.
7. Insert lamps.
