

BRIDGEPORT QUALITY, NOW IN LIVING COLOR.

UL LISTED COLORED EMT FITTINGS

US Patents
6,861,585
6,817,895

Bridgeport colored EMT fittings and couplings come in eight colors to match popular lines of colored EMT conduit. So as you assign colors to runs for varying applications or to fit in with a project's decor, your connections look cleaner and more professional – without painting or coloring. Our patented colorizing method complies with all UL and NEC requirements and allows positive visual inspection of color from either inside or outside the electrical box. And since the fittings say Bridgeport, you know that quality, easy installation and reliability are part of the package.

COLOR MAKES A DIFFERENCE.

Silver

Use with Silver EMT in traditional wiring systems.

Red

Use with Red EMT for emergency circuits, fire alarm and security system applications.

Blue

Use with Blue EMT for low voltage wiring, data comm/video and network security applications.

Black

Use with Black EMT in dark colored areas and open architecture applications.

Orange

Use with Orange EMT in construction/research, fiber optic and auto repair/maintenance applications.

Yellow

Use with Yellow EMT in special equipment, caution areas, and high voltage wiring applications.

Green

Use with Green EMT for critical circuits, nurse call stations and hospital and healthcare applications.

White

Use with White EMT in light colored areas and open architecture applications.
